## HELSINKI

Another of Ms. Davison's omissions of what is in her own sources is in her account of how Oswald got to Moscow. (74) She says that on the same day Oswald reached Southampton, England, "he flew to Helsinki." What she omits and the Commission published is the CIA's investigation. It established that Oswald could not have reached Helsinki when he did by any public carrier. How he got there remains a mystery. Maybe an intelligence agency would solve this mystery.
